FOREWARD

Compiling this record has been a most interesting piece of research and it is hoped that you will get as much information from it as it has been to the compiler. The cemeteries are listed and numbered in alphabetical order. Acknowledgements are extended to the following parties who gave assistance in locating many of the private cemeteries: Clifford Waldrop; W.A. Miller; Lewis Brown; Derral L. Schlock; Lewis Moorhead; Malcolm Hawkins; Joseph Milton Adams; Bill Suttles; Mrs. James H. Campbell; The South Caroliniana Library for providing records of some obliterated cemeteries; Franklin Acker of the Independent; and especially do I wish to thank Danny Davis of Pelzer who assisted in compiling data from many cemeteries in and around Pelzer, Piedmont; Williamston, Belton and Honea Path.

In general the following procedures have been used in compiling this data, there are some exceptions. The number following each name on the extreme right is the number given the cemetery in which the individual is buried-see back of volume. These same numbers are used to indicate the location of the cemeteries on the map found in the front of volume. Only the names of adults have been recorded, with a few exceptions. The husband and wife are listed together if the maiden name of the wife was not shown. In many cases the maiden name has been later ascertained but left in its original position. Examples, "W.A. Roark 3-28-1897 (12-7-1945). Wife, Linnett D. 4-17-1896 (3-7-1958)". If the maiden name was given the entry appears: "John Clayton Allen 2-23-1876 (12-20-1910). Husband of Annie Dean". Annie will appear under 'Dean'. If the wife or husband is not known to be deceased, or if no record was found of such death, the entry is as follows: Roy Clyde Allen-died 3-20-1857 age 71. Wife, Mary Turner."

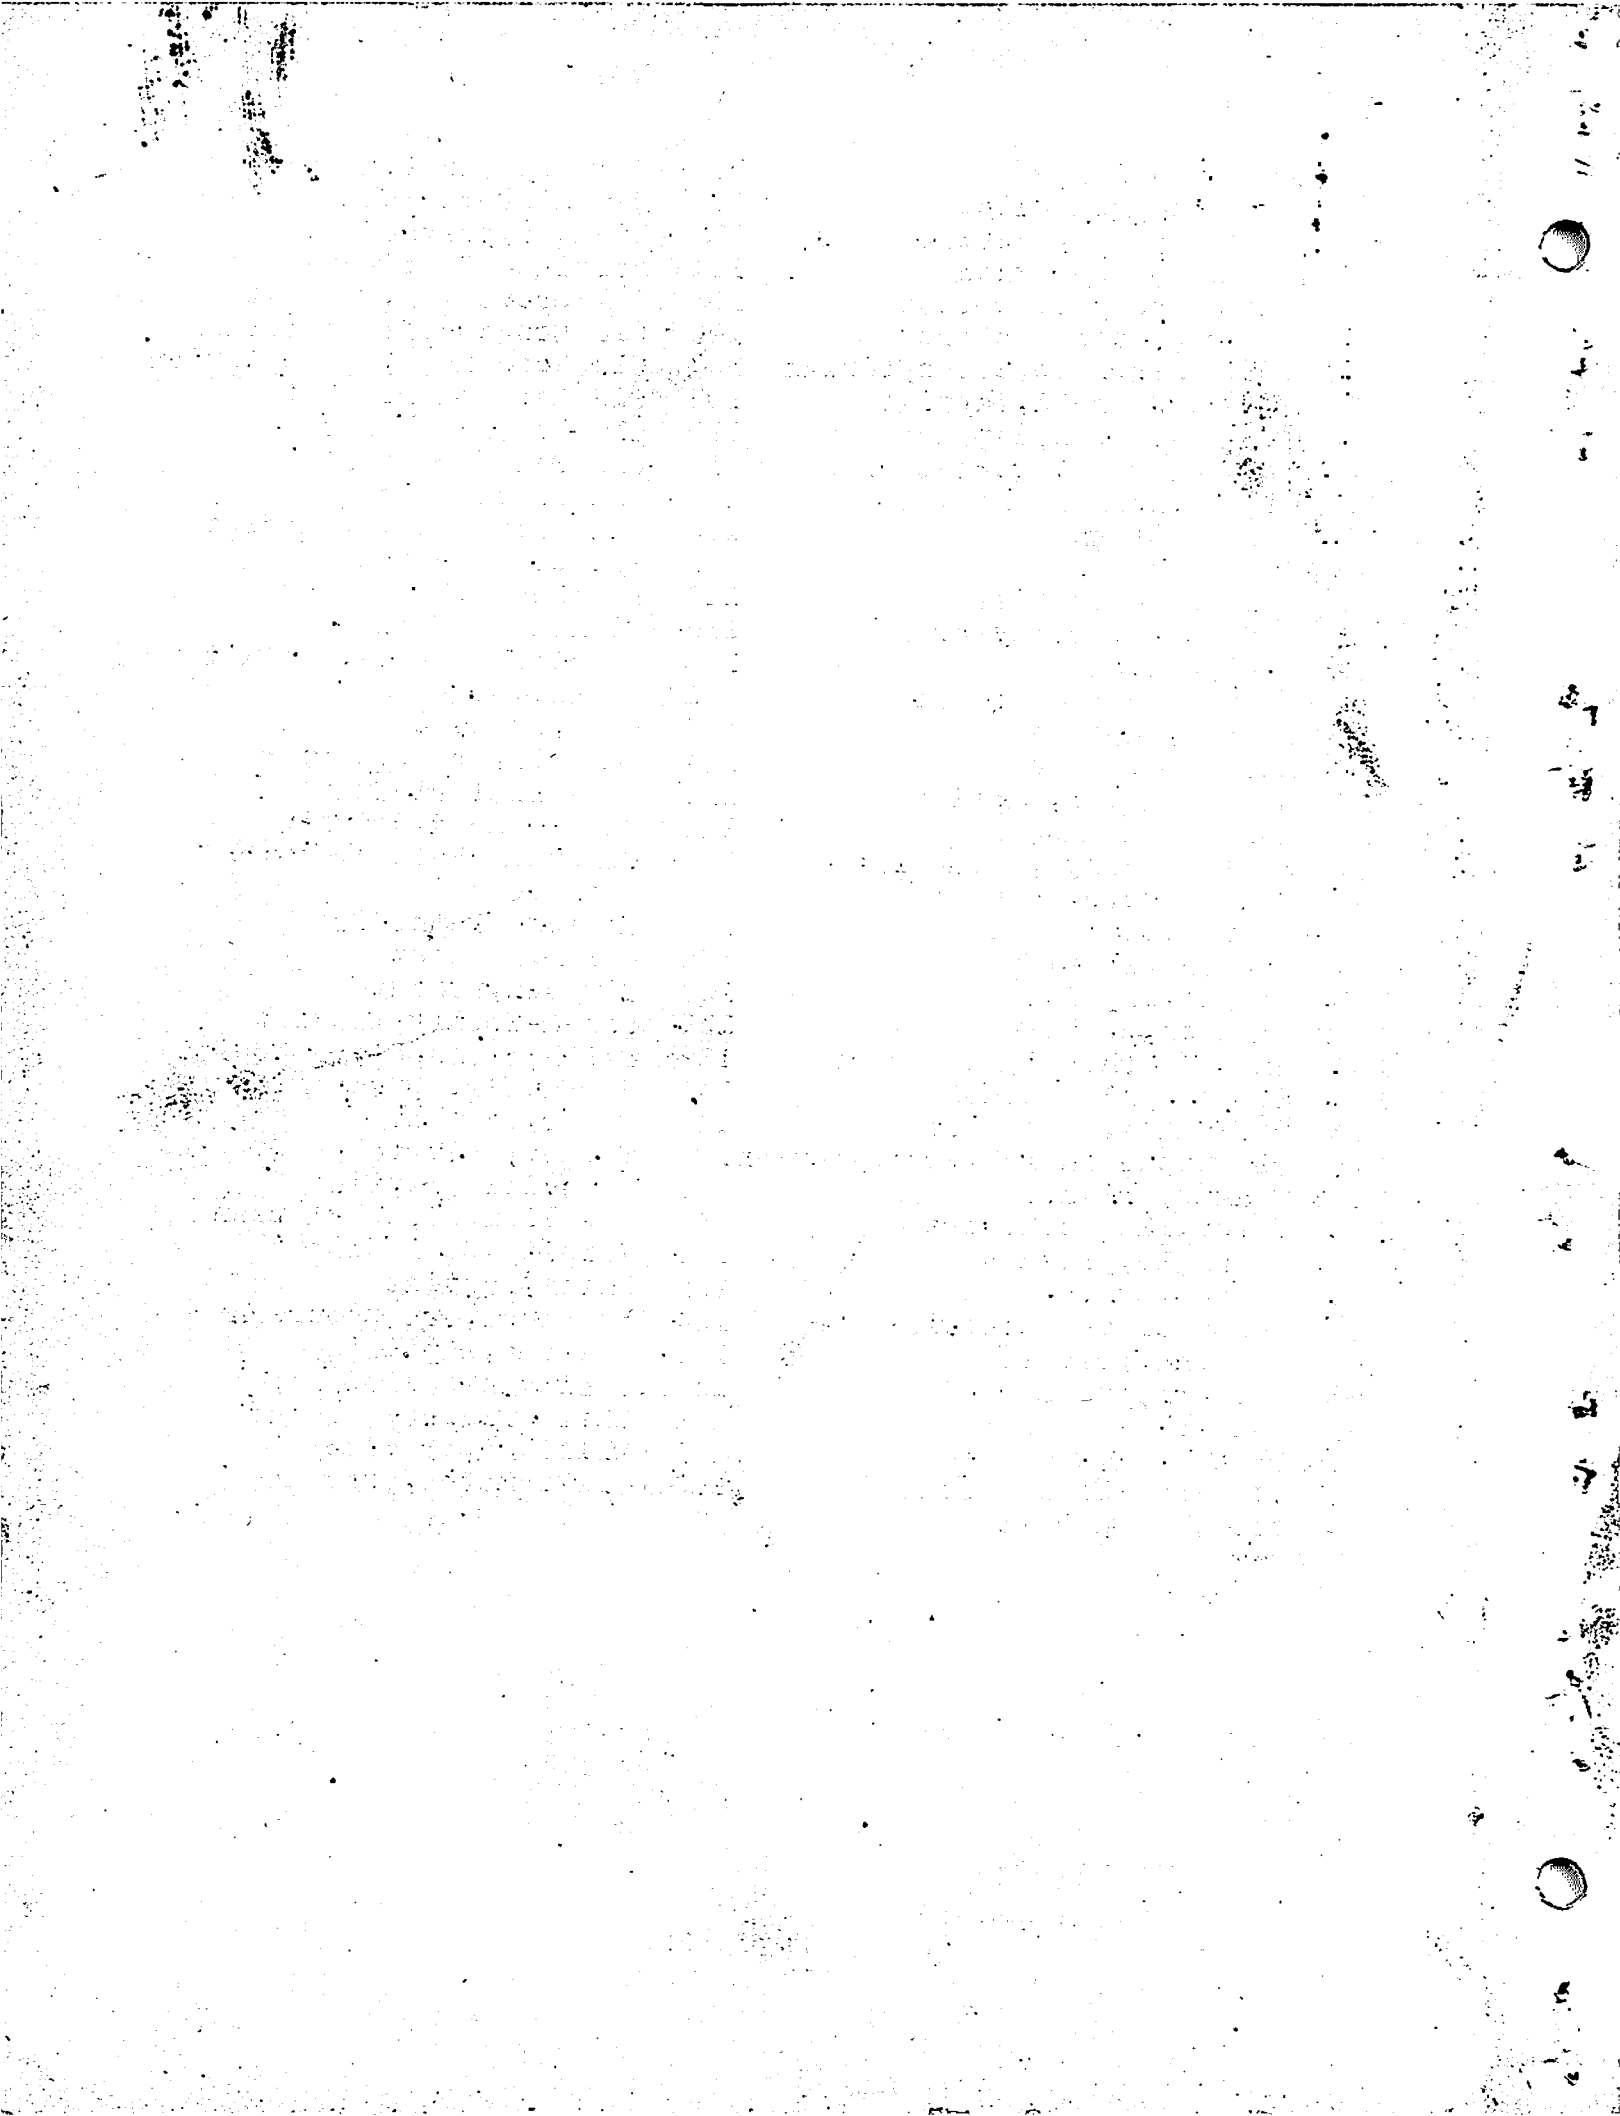

Several of the cemeteries included are not in Anderson County, but since they are just across the neighboring county lines and since many of the deceased buried in these cemeteries were natives of Anderson they were included. There were other reasons also. For instance the Williams cemetery across the Saluda River from the Duke Power plant is included because the town of Williamston was named in his honor.

Many death and marriage dates were found in old Anderson papers. No cemetery marker was found for many of these and since the place of burial was not mentioned a question mark appears in place of a cemetery number.

Several private cemeteries were found after much of the stencil work had been done. These will be found at the end of the volume.
